

Learn How Watches and Clocks Work!

Class Address:
Shoreline Center
18560 1st Ave NE
Shoreline, WA 98155

NorWest School of Horology

NWSH offers instruction in the basics of mechanical watch and clock repair. Courses cover horological theory and technology, and an introduction to micro-machining.

Whether you are a beginner with a fascination for clocks or watches, a serious hobbyist with an interest in acquiring the skills needed to maintain your collection, or an experienced horologist with a desire to sharpen your technique.

At NWSH, all instructors are committed to teaching in a structured manner, building student confidence in a purposeful way. Our classroom is fitted with the latest technology, quality tools and individual workspaces; each instructor brings the art of watch and clock repair to life.

Sessions are offered as a series of three consecutive quarters, each 10 weeks with 30 hours of instruction and lab time, beginning in the Fall. Tuition is paid quarterly; classes meet once a week in the evening. Classes fill up fast!

Our Classes—Starting September 14, 2015

Watch 101: Intro to Basic Watch Repair

Instructors: Mark Smith, Matt Lickey
Tuesdays 6:30pm—9:30pm

Intended for the beginner, students will learn: use of tools, terminology, and history. Classes follow a structured outline, each session is a combination of lecture and hands-on instruction. Practice watches and specialized tools will be provided.

Watch 121: Intermediate Watch Repair

Instructors: Mark Smith
Mondays 6:30pm—9:30pm

Intended for the student that has completed the three quarters of watch 101, students will learn intermediate techniques and skills. This class takes the student to the next level of expertise with lots of hands-on and in classroom lecture and interaction.

Pre-Requisite: Watch 101 Series or equivalent experience.

Clock 200: Clock Repair & Restoration

Instructors Clinton Harris, Rob Clemmer
Wednesdays 6:30pm—9:30pm

Open to all skill levels. The small group setting is structured to provide a strong foundation of fundamental clock analysis and repair skills. Beginners learn skills needed to analyze, and repair time-only movements. Experienced students benefit from a collaborative environment to pursue individual projects with assistance and support from instructors.

Watch 150: Individual Projects

Instructor: Tom Payne
Thursday 6:30pm—9:30pm

Intended for the hobbyist with experience, school facilities are made available with access to an instructor, tools, cleaning machines & workbench included in the tuition.

Pre-Requisite: Watch 101 Series or equivalent experience.
